Renalytix plc
("Renalytix" or the "Company")

Director/PDMR Dealing

New York, 6 September 2021 - Renalytix (LSE: RENX) announces that it has been advised of the sale by O. James Sterling, the Company's Chief Financial Officer, of 3,000 American Depositary Shares ("ADS"), each representing two ordinary shares of £0.0025 each in the capital of the Company ("**Ordinary Shares**"), under a Rule 10b5-1 trading plan established in accordance with Rule 10b5-1 under the U.S. Securities Exchange Act of 1934, as amended, and the EU Market Abuse Regulation as it forms part of UK law by virtue of the European Union (Withdrawal) Act 2018 ("**MAR**").

Rule 10b5-1 plans permit directors, officers and other company insiders to adopt, at times when they are not in possession of material, non-public information, or inside information, written plans for trading securities in a non-discretionary, pre-scheduled manner in the future.

Following completion of the sale, O. James Sterling is interested in 1,805,236 Ordinary Shares representing 2.50% of the current issued share capital of the Company.

About Kidney Disease

Kidney disease is now recognized as a public health epidemic affecting over 850 million people globally. The Centers for Disease Control and Prevention (CDC) estimates that 15% of US adults, or 37 million people, currently have chronic kidney disease (CKD). Further, the CDC reports that 9 out of 10 adults with CKD do not know they have it and 1 out of 2 people with very low kidney function who are not on dialysis do not

know they have CKD*. Kidney disease is referred to as a "silent killer" because it often has no symptoms and can go undetected until a very advanced stage. Each year kidney disease kills more people than breast and prostate cancer. Every day, 13 patients in the United States die while waiting for a kidney transplant.
